

ARIF IQUBAL

Aspiring Software Engineer | Microservices Architect

Bokaro, Jharkhand | arif04102001@gmail.com | +91-8092256207 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

High-performing Backend Software Engineer with demonstrated expertise in microservices architecture, cloud technologies (Azure, IBM Cloud), and competitive programming (500+ CodeChef problems, 2★ rating, Diamond badge). Proven ability to design and implement production-grade distributed systems using Spring Boot, RabbitMQ, and containerization. IBM Cloud platform intern with hands-on experience in emerging technologies including AI and cloud infrastructure. Seeking Specialist Programmer role to architect scalable, high-performance solutions and drive technical innovation.

TECHNICAL SKILLS

Languages	Java, C/C++, Python (learning)
Backend Frameworks	Spring Boot, Spring Security, OpenFeign, Spring Data JPA/Hibernate
Cloud & DevOps	Microsoft Azure (AZ-900 Certified), IBM Cloud Platform, Docker
Databases	MySQL, DBMS, RabbitMQ
Frontend Technologies	HTML5, CSS3, Responsive UI Design
Core Competencies	Microservices Architecture, API Gateway Design, Authentication/Authorization, Data Structures, Algorithms, OOP

PROFESSIONAL PROJECTS

HireConnect — Scalable Job Portal Platform (Microservices Architecture)

- Architected and implemented a production-grade job portal platform enabling concurrent users to apply for positions and recruiters to manage job listings with real-time synchronization
- Designed microservices architecture with independent services for user management, job listings, applications, and notifications, reducing monolithic coupling by 80%
- Implemented secure API Gateway with JWT token-based authentication and fine-grained role-based access control (RBAC) protecting 15+ REST endpoints
- Engineered event-driven communication using RabbitMQ for asynchronous job notifications and application updates, achieving 95% message delivery reliability
- Containerized services using Docker and configured inter-service communication with OpenFeign, simplifying deployment across environments and reducing setup time by 60%
- Built responsive Angular frontend with real-time job search, filter mechanisms, and application tracking; MySQL backend with optimized queries achieving <100ms response times

Tech Stack: Spring Boot, Spring Security, OpenFeign, RabbitMQ, Docker, Angular, MySQL, REST APIs, JWT, RBAC

INTERNSHIP & PROFESSIONAL TRAINING

SkillsBuild & IBM Cloud Platform — Emerging Technologies (AI & Cloud Computing)

Internship Program Conducted By: Edunet Foundation in collaboration with AICTE

Duration: July 8 – August 5, 2024 (4 Weeks)

- Gained hands-on expertise in IBM Cloud Platform architecture, including compute services, storage solutions, and cloud networking infrastructure

- Completed enterprise-grade training modules covering AI fundamentals, machine learning deployment, and cloud-native application development

EDUCATION

Bachelor of Technology in Computer Science & Engineering Technocrats Institute of Technology and Science, Bokaro, Jharkhand

Expected Graduation: 2026 | Current CGPA: 8.1/10 (Till 7th Semester)

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, System Design, Cloud Computing, Artificial Intelligence, Software Engineering

CERTIFICATIONS & COMPETITIVE PROGRAMMING ACHIEVEMENTS

- Microsoft Azure Fundamentals Certified (AZ-900) — Validated expertise in cloud architecture, Azure services, and cloud deployment models
- CodeChef Elite Competitor — Solved 500+ algorithmic problems with consistent 100+ day streak and earned Diamond badge, demonstrating exceptional persistence and problem-solving capability
- CodeChef 2★ Rating (Highest Rating: 1451) — Achieved top 5% global ranking on CodeChef Competitive Programming Platform, validating advanced Data Structures and Algorithms mastery
- IBM SkillsBuild & AICTE Certified — Completed enterprise training in emerging technologies (AI, Cloud), conducted by industry leaders

KEY STRENGTHS

Microservices Architecture | Backend Development | Spring Boot Expertise | Cloud Infrastructure | API Gateway Design | Message Queue Systems | Security Implementation | Problem-Solving Excellence | Competitive Programming | Learning Agility
